

Extruded thermoplastic sheets (polypropylene, polycarbonate)

Extruded plastic sheets are available in a very wide range of thicknesses and sizes.

- They are:
- Lightweight
 - Strong
 - Easy to convert
 - Hygienic
 - 100% recyclable
 - Low cost compared with wood, PVC or polystyrene
 - Suitable for a variety of applications

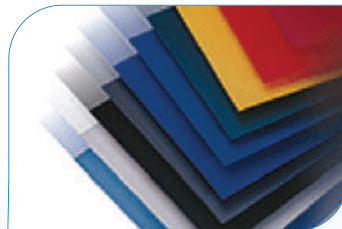

Akyplac®

A polypropylene twin-wall sheet, thickness 3 to 10 mm. Akyplac® is available in white for applications requiring printing and as a flame retardant product.

Akyplen®

A flexible solid polypropylene sheet ideal for screen and offset printing as well as for prestige packaging. AKYPLEN® is available in a wide choice of colours, surface types and thicknesses (from 0.25 to 2 mm).

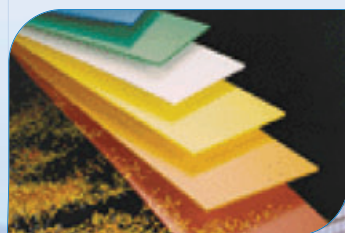

Akyprint®

A unique patented technology: a light, flat, polypropylene bubble sheet. Ideal for printing, stand construction...

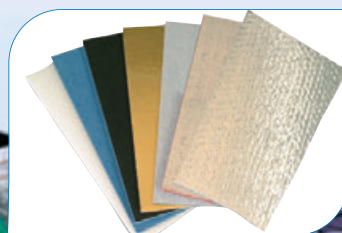

Akylux® and Correx®

An extruded cellular polypropylene sheet available in a wide range of colors (from 2 to 11 mm).

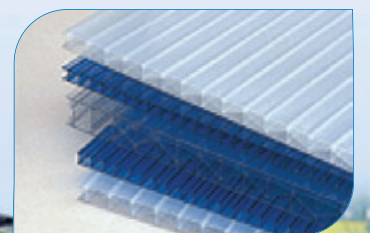

Bubble guard®

A polypropylene bubble sheet with multidirectional mechanical properties which can be complexed on the production line, with nonwoven fabrics, PP foams or films.

Akyver®

A light, translucent, shock resistant extruded cellular polycarbonate sheet. Akyver® is ideal for roofing in industrial and public buildings and sports centres.

Product range

Industrial Packaging

A wide range of products can be designed to measure and used in many sectors such as the automobile industry, pharmacy, cosmetics, electronics, drinks, metallurgy...

MTM Boxes

A made-to-measure range of containers in cellular polypropylene, Akylux®, Correx® and Carton Plastico. They can be stacked up and identified.

Clamping and tailor-made Protection

Akylux®, Correx® and Carton Plastico spiders and cellular units are ideal for conditioning parts with a fragile appearance or surface.

They can be covered with protective coatings (spun, foam rubber...).

Standard Containers

Uni-Pak® is a three-unit container (pallet, cover and belt). It has been designed for all kinds of storage and distribution channels.

Plastic Pallets

Duro Pallet™ and Hyrack™ are two trademarks of the standard plastic pallets range. These plastic pallets are reusable, resistant and hygienic. They can be made to measure with a choice of covers and perimeter lips.

Flexible packaging

Flexible protective packaging, 100% recyclable, to protect fragile parts. Ideal for fitting out tanks, containers and trolleys.

Bottle and can layer pads

Akylux® sheets for glass containers (bottles) or Akyplen for metal containers (cans) for the drinks market.

Product range

Printing and Advertisement

Akyplac®

A polypropylene twin-wall sheet ideal for large format and outdoor advertising displays and signage.

Akyplen®

A solid polypropylene sheet for promotional advertising items and office accessories.

Translucent Akyplen®

A solid PP sheet with a smooth and gritted surface for luxury packaging.

New! Litestop Akyplen®

A solid PP sheet, light transmission 0%.

Designed for recto-verso printing.

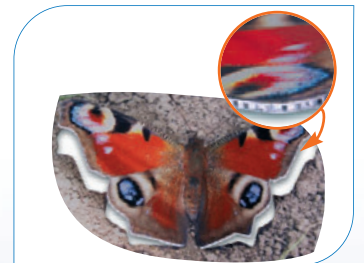

Akyplen® Soft Touch

A translucent solid PP sheet with an original surface appearance ideal for new applications, i.e. mouse mats, place mats, fine leather goods, packaging.

New! Akyprint®

A new polypropylene bubble structure material. Its flatness, lightness and "sandy" finish makes it an ideal printing media.

Flame retardant

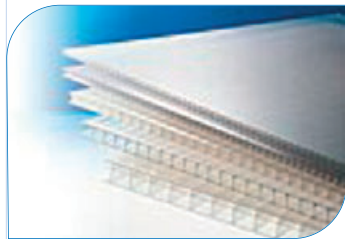

Internal advertising & display panels for exhibitions, available in both Akyplac® & Akyplen®.

Building Solutions

Akyver Sun Type®

A complete range of polycarbonate sheets for cladding and roofing in industrial and public buildings.

New! Akyver Connect® 16

16 mm connectable solution for roofing and cladding, in flat or bent applications (industrial or public buildings).

Akylux® Construction

Polypropylene cellular sheets for building foundations and protection applications.

Akylux® solar collectors

Cellular polypropylene sheets, welded at the ends to two rigid polypropylene tubes. Used for swimming pools.

Akyver® Panel 40

40 mm polycarbonate multi-wall sheet clip-on system.

Ideal for new cladding or renovating industrial and public buildings.

The sheets are supplied with a complete range of aluminium profiles and accessories for a quick and professional fitting
