

New!

Akyplen[®] Soft Touch

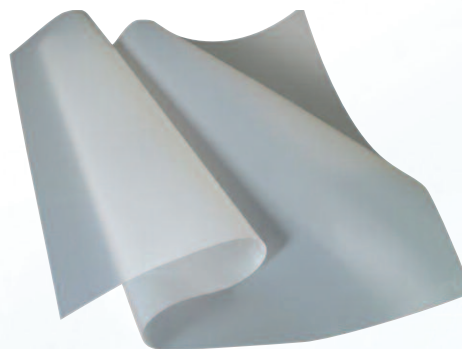

Translucent solid PP sheet with smooth surface

Soft touch, peach skin softness and flexibility which moulds to different shapes. You almost forget that it's polypropylene.

Whether using screenprint, offset, ink jet or hot foil blocking, Akyplen[®] Soft Touch lends itself to all designs.

Its flexibility and softness make it ideal for new luxury packaging applications and advertising products like mouse pads, place mats and other new design articles.
